

A close-up, low-angle shot of a woman with dark skin and short dark hair. She is wearing a light blue, possibly wet, top. Her hands are placed on her face, with fingers spread, partially obscuring her eyes. A bright, circular light flare, resembling the sun, is positioned on the right side of her face, casting a strong glow. The background is a clear, pale blue sky.

WINTER SOLSTICE
collection

As the shortest day of the year approaches, you might not be feeling any love towards the cold and dark of the winter solstice.

This collection reminds us of the beauty in all things, even the frosty, bitterness of December days. Instead of looking upon the solstice with dread, we want to share with you the enchantment of winter, the magic of the holidays and provide you with warmth and solidarity when the icy winds blow. Winter colors and fashionable cuts of this collection are designed with care and passion for dance.

THE WINTER SOLSTICE IS THE GREAT STILLNESS BEFORE THE SUNS REBIRTH

Winter Solstice. The longest night of the year with continuous twilight. The world awaits the rebirth of the sun to signify the time of year to set new intentions and let go of the past.
